

# GLOBAL GARDENS

From Training to Sustaining: How Beginning Refugee Farmers Build Successful Farm Enterprises in Boise, Idaho

## GOALS

- Create sustainable, profitable, independent small farm businesses
- Create opportunities for beginning farmers to create efficiencies and incorporate climate smart agriculture that increase farm sustainability.

## ANTICIPATED OUTCOMES

- Farmers finish 3 year apprenticeship program poised for success in both farming practices and business management.
- Opportunities to expand Global Gardens land and ability to work with more farmers.
- Climate sustainable practices are adopted and utilized, specifically related to water conservation and limiting food waste.
